NANO-DESU Accu Line Limited 2013

Check out the ACCU LINE LIMITED 2013! Just as the name states it is limited so be sure to get yours before it is gone! Looking back to the original ACCULINE LIMITED we wanted to tweak the proven performance by introducing the AVEX LIMITED 2013 cover stock paired with the Big Shuttle core. This multi colored ball combines 3 types of particles as well as a 2 part synergy cover mixture. The result is a smoother and faster flow out of the gate with serious friction in the backend. We cranked it up on the factory finish from a 3000 polish all the way up to 10000; this helps to prevent the ball from hooking too early and
