

MOTIV

SIGMA STING

The pearl Sigma Sting™ is tuned to be an amazing benchmark ball. Engineered for medium oil, it provides great length and outstanding backend motion that continues confidently through the pin deck. This is the first time MOTIV has put a pearl cover stock around the Sigma™ core. The Sigma™ Sting from MOTIV™ is an incredibly versatile benchmark weapon that will be used by a wide array of bowlers. It is a must-have piece for bowlers building a solid tournament arsenal. It also provides the perfect shape for many league bowlers that need something angular, but not too jumpy on a house shot.
